Dear Grant:

I would like to thank you so much for being the absolute highlight of our Top Management Seminar this year in Jackson Hole. Your "Horse Whisperer" demonstration was such an out-of-the box educational session for our group and they just loved what you showed them with the horse you worked with.

As you know, our group consists of Owners, CEO's, Presidents and senior level Executives in the snack food industry and they were thrilled with your session and the message you gave them on Trust. Apparently, you can teach an old *horse* new tricks.

Thanks again for making our meeting a huge success. Working with you and Jane was so smooth and effortless. I appreciate all you both did to make this happen for us.

I hope you will feel free to send people my way if you need a reference in the future.

Sincerely,

Liz
