DEDICATION

We dedicate this book to our Lord, Jesus Christ, in gratitude for His transformational saving grace. The privilege of receiving and passing on these truths is one of our life's greatest joys.

A special thank you to our Serve the King team who have dedicated their talents and hearts to this project.

Soli Deo Gloria!

The Greatest Threat to the our way of life is the philosophy born out of the theory of evolution. ***Believe it!***

PREFACE

evil-lu-tion

Definition of evilution

The systematic deception of the origin of human life for the expressed purpose of having society depend upon government; not God.

The public school system's indoctrination of students to accept the "theory" of Evolution as scientific fact is the greatest hoax forced on our children – our culture – in our country's history. Public education offers no other choice! All other possibilities of the origin of mankind from Intelligent Design to Biblical Creation have been censored. And, it is the philosophy evolution fosters that is the source of myriad social upheavals and moral decay.

Evolution's basic treatise lays the ground work for the belief in self as the highest standard and power. God, then, is disregarded making way for the acceptance of destroying - without conscience - His highest creation, mankind, via abortion, assisted suicide, etc.. Evolution's religion, Hedonism, glorifies self. It promotes self gratification, self-serving, and the total self-indulgent philosophy that individual pleasure is the highest good and proper aim of human life. Therefore, it excuses bullying, cheating, stealing, promiscuity, same sex relationships, and more. It promotes a total disregard for civil authority and

diminishes human potential as witnessed in the disappearing ability for critical thinking among its disciples.

More aptly named ***Evolution***, evolutionary philosophy's tentacles have an undeniable strong-hold on today's youth. The sad proof that this philosophy permeates the mindset of today's teens is realized in hard statistics charting the mass exodus of 60% to 80% of young people from church after high school graduation. They have believed the lie and become its slave. It's a choice between the Tree of Knowledge of Good and Evil and the Tree of life.

"... today I have set before you life or death, blessing or curse. Oh, that you would choose life; that you and your children might live!"

Deuteronomy 30: 19 Living Bible

Chapter One

Tell a Lie Long Enough

A big lie (German: große Lüge) is a propaganda technique and logical trick (fallacy). The expression was coined by Adolf Hitler, when he dictated his 1925 book *Mein Kampf*, about the use of a **lie** so “colossal” that no one would believe that someone “could have the impudence to distort the truth so infamously”.

Most Americans believe the Big Lie! Evolution is a theory, not a scientific fact, yet many States in the USA have considered evolution a scientific fact. It is not. Just think about the deception we have fallen for in government schools where any origin of life is censored from being taught except evolution. That means if you believe in the theory of evolution as fact then you believe...

- Nothing Created everything
- Chaos created order
- Non-life created life
- Non-consciousness created consciousness
- Non- Personal created personal
- Non-Rational created rational
- Blind created sight
- Deaf created hearing.

Think about it! Nothing created everything? Impossible.
Yet every public school student must believe it or fail.
They must perpetrate and probagate the **BIG LIE!**

Chapter Two

Why People Believe in Evolution

People are taught to believe it is a science by people they trust. Their teachers were taught it by their teachers and professors they trusted. And all the teachers and professors up the line were taught by those they trusted. And probably less than one percent of all the scientists who ever lived have had a firsthand experience in the lab questing after the origin of all of creation. All the rest believe second hand and having no personal hands on experience; they simply believe what they have been taught in faith. Think about it! The very authority figures that are condescending to you for your faith in God are accepting really outrageous claims of how vision and digestion and reproduction came into being by faith. Can you see how it takes more faith to believe in evolution than a religious believer? Did you know that the scientific method can only be applied to operational science, not historical science? It takes more faith to believe this unproven theory that contradicts the second law of thermodynamics, than to believe in the Creator.

Have you ever thought about how NOTHING could create EVERYTHING?

Has science ever been wrong? Yes, many, many times. Here are just a few errors that stand out over the centuries: the flat earth theory, the belief that the earth was the center of the universe, and the myth that margarine is good for your health. For 25 more “scientific” errors see the link at the end of this paragraph. Some choose to worship at the altar of science. We, in good conscience, cannot! <https://list25.com/25-science-facts-that-were-proven-wrong>

How do you decide who to trust?

Do you agree that bad conduct is a revelation of one’s nature and character? Are you less likely to trust a bully than someone who listens and discusses possibilities? Of course you want the ability and freedom to choose, not be bullied, or have your opinions and beliefs censored. So let’s consider the sources for passing down the theory of evolution as scientific fact. It is the Goliath model of the public educational system that teaches the theory. Our children have no alternative choice; no intelligent design, superior being, or even aliens are allowed to be considered. How does Goliath act when alternate theories are put forth? They posture themselves as the Goliath of old did with arrogance and condescension; with rude dismissal. Your “Intelligent Design” theory is religion and not science and will not be allowed in the classroom! Who gave them the authority to rule on what is and

what is not in the unknown world of space? And why do they get to decide what is allowed in our tax-paid-for schools? You might think that if they are as confident as they claim, they would gladly and quickly demonstrate and conclusively prove the superiority of evolution scientifically! They cannot.

There is no incontrovertible proof that evolution is a scientific fact.

We contend that evolution is not even valid science, but rather an easy excuse to *not* acknowledge the Creator. Why they would rather believe that an explosion made everything come into existence (Big Bang Theory) or a single cell amoeba grew into the entire catalog of inorganic and organic items including the animal kingdom, culminating with humanity! How the evolutionary scientists maintain the age of the evolutionary process randomly began millions of years ago is a mystery when everything in eyesight is a human, purposeful design. Nothing just happens.

It is a dirty little secret why they never agree to a side by side comparison. Why? Because they have no facts or standard by which to justify their claims that the origin of life has scientific outcome and is attributed to evolution and not to God. They have no way to prove without any doubt evolution is scientific fact. We can conclude that their resistance to other possibilities of the origin of mankind is nothing less than bias and bullying.

Look at society after 50 years of pushing evolution as science. Civil behavior is largely declining and lawlessness is increasing. A social system without order where everyone does what he or she thinks is right is like a city with 8 million people driving cars on streets without stop signs and traffic lights. There is bound to be fatalities. Ever been in a third world country where condition like that exist. I have. Almost every car is populated with dents.

The Theory of Evolution is forced on innocent children, as Goliath taunted David, with nothing to back it up but his boastful fear tactics then just as the giant fell to his death, so will the theory of evolution be proved to be a house of cards! Share the truth by simply asking the questions on page 13 and wait for an answer. You will quickly debunk this horrific BIG LIE!

Social media, PTA meetings, letters to the editor, stimulating conversations etc. are some good options to do so. Play close attention to the approach that works effectively in Chapter Three.

Let's get ready for an awakening!

Chapter Three

Don't Argue

Rarely do you ever win when you argue, let alone in the scientific arena where most are not scientists.

When dealing with the progressive mind where there are no absolutes (right and wrong), no agreed moral standards, and the concept of tolerance becomes distorted to mean that only situation ethics apply, how can you come to any agreement or logical conclusions about anything? That means values clarification (whatever you decide at the moment is right, although immoral by Biblical standards) supersedes logic and truth; then chaos and disorder are on its way. Endless arguing becomes just that: endless arguing.

The acceptance of evolution as a science and the rejection of God's absolute social order by evolutionaries insist believers possess bias, bigotry and are adhering to ancient and archaic principles that have long passed. They deny the validity of all stances against their agenda.

Let us train ourselves to view all others with sympathy. The world is a broken place for all.

Picture those in need as fellow humans, beset with problems on every hand operating in a hostile world while they work and try to find a little peace and fulfillment. As the world drifts away from truth and the unseen eternal life, then fearing, longing, aspiring, being anxious, struggling and sometimes failing, leave unbelievers without victorious hope. Can we not resolve to view others with mercy and kindness? Whatever spirit we possess manifests itself. If we are condemning, it will show. If it is the love and mercy of our savior it will show. God help us!

Christians under God are commanded to love everyone even our enemies! Our challenge is to present the message in a loving way that others cannot deny you care for them although your stand may be in conflict with theirs. There are obvious limits we must discern and oppose when presented with destructive social conduct, but I believe most unbelievers do not understand the consequences of a worldly philosophy that has no standards. Look around and you will see a moral crisis in our political leadership, educational system, entertainment complex, and news and media outlets. What shall our response be?

Biblical grace and truth is steak to the believer but most often indigestible to spiritual infants. Love is milk that grows God's mercy and compassion in the unbeliever. The salvation message can be delivered in many ways. Show love.

***Share the Gospel in all the world and if
necessary use words!*** St Francis

I received a blasphemous note from an atheist on Facebook and could have started an argument but instead I thanked him for his opinion and sold him his objection by saying, *"If I were in your shoes I would feel exactly the way you do. I am not looking to win an argument and I respect your opinion and beliefs. Although I have a science background I am not well educated in the theory of evolution but rather I look at the consequences of the evolutionary philosophy vs. my belief in a creator as follows:*

Biblical World-view

God
Divine Creation
Supernatural Man
Christ Centered Life
Biblical Guidelines
Absolute Standards
Obey God's Commands
Moral Accountability
Human Value & Purpose
Long Term Gratification
Internal Self Government
Sacrificial Living
Serve Others
Hope - Faith
Eternal Life

Progressive World-view

No God
Evolution
Natural Man
Self Centered Life
Values Clarification
Situation Ethics
No God - Obey Self
Self-indulgent Behavior
Survival of the Fittest
Immediate Gratification
External Government
Self-indulgent Living
Serve Self
No Hope
Death

Your friend,

Domenic.

To my amazement he wrote back and said that was the best explanation he had ever heard and even said ***God bless you.*** I have no idea where that came from except I made a friend with what seemed to be a enemy and love conquered all.

We know that no one will achieve perfection in this life so recognizing we need a redeemer, a savior (Jesus) that is someone with power, influence and wealth that takes up our cause and pays for all our mistakes, ignorance and sins. Not arguing but understanding is the first step toward peace for everyone. Arguing builds and strengthens walls with the opposition, while befriending a person with mercy and compassion brings walls down a brick at a time. Fear not the adversary, for love will melt even the hardest of hearts.

Be patient and kind and in time God's love will cover a multitude of sins. If God has replaced the penalty of the Law of Moses with the Grace and Truth of Christ's forgiveness, then the least we should show is mercy to those in need of redemption. Most of all preach the Gospel of Our Father's love for we know...

God is Love! John 4:8

Don't Argue

Chapter Four

The Evolutionary Impact of Society

As we briefly discussed in the last chapter the contrasting views of God vs. Evolution it is important to use the differences in conversation in the form of questions and then shut up and put pressure on them to answer. Don't answer your own question. If you have to leave them thinking; good.

For example if you were to hire an employee or find a mate you decide to marry would you like them to be described as one who believes in the evolutionary philosophy or God principles. Let's see. So you want an employee or mate that is self serving without a moral foundation of right and wrong that lives by his or her own standard, who steals, cheats, lies and only does the right thing when someone is looking. A person that makes little

or no sacrifice for the team or marriage but employees situation ethics. That means they decide what is right and wrong to suit the outcome they desire. It's like playing football without rules, running a business without order. Very often the progressive is concerned with immediate gratification and not the long term commitment. Review this chart again and you may respond like Al Capone did when he was caught reading the Bible. "I'm looking for loop holes". There are no loop holes to God's absolutes. They work for the good of all.

Biblical World-view	Progressive World-view
God	No God
Divine Creation	Evolution
Supernatural Man	Natural Man
Christ Centered Life	Self Centered Life
Biblical Guidelines	Values Clarification
Absolute Standards	Situation Ethics
Obey God's Commands	No God - Obey Self
Moral Accountability	Self-indulgent Behavior
Human Value & Purpose	Survival of the Fittest
Long Term Gratification	Immediate Gratification
Internal Self Government	External Government
Sacrificial Living	Self-indulgent Living
Serve Others	Serve Self
Hope - Faith	No Hope
Eternal Life	Death

When we take the "survival of the fittest" approach of the progressive, evolutionary philosophy self indulgent behavior produces conflict. Harmony comes with sacrifice and moral accountability. Every marriage is not a 50-50 relationship. There are many times one of the partners has to give 100% when their mate can offer nothing. It's an attitude of service knowing you

will be rewarded in the near future or in heaven. It's a declaration of true love which is illustrated in the ultimate sacrifice of Jesus on the cross you and me that we imitate for the best of all. Imagine a community where all its inhabitants do whatever benefits them personally. Only disunity or ultimately chaos will result. A sacrificial life style promotes unity when acting with a Christ-centered view.

The same applies to an employee. Would you hire an individual that works hard, goes the extra mile, does the right thing when no one is looking, is honest, does not steal and serves others for the good of the company. Or would you hire an individual that works to just get by, does what he or she thinks is right when no one is looking, tells little white lies to make themselves look good and steals items for their personal use.

The chart to the left are the two extremes, however I think you will agree a Biblical world view is beneficial to all relationships in the long run. Most people rarely consider the above but if you examine the past two generations of government school teaching discipline has been replaced with drugs, God with guns, hate with true tolerance, and life with abortion.

It's a lot to digest but you have to ask yourself the question, "what do I really believe?" The younger you are the more you have been influence by the evolutionary curriculum, the more you act with the progressive response to your environment. Think about it. Think about your children's future. Save them.

Chapter Five

The Decline of Church Attendance

If today is a school day, tens of millions of children are required to be in school. If it is a public school, only one view of the origin of mankind is allowed. The only choice they have is to agree evolution is a scientific fact, which it is not, or fail. This is the very definition of brainwashing and indoctrination.

The God defying and faith destroying theory of evolution rules the world and is almost universally perceived as true. And its advocates are perceived as having tons of evidence proving their theory of evolution is scientific fact. Where is the evidence? The tens of thousands of volumes that are believed to “prove” evolution is fact does no such thing. They are all written from the perspective that nothing exists beyond the physical and natural. They do away with God right there! Before they go into the lab and make their first experiment. They offer no proof that

nothing exists beyond the natural. You are expected to make this most consequential decision BECAUSE THEY SAY IT!

The Right To Ask

Do we have the right to ask “What Standards or Protocols or Criteria are used to determine that, not God, but something else, is the Productive Cause of everything?” Not having any acceptable scientific standards reveals that the determinations made in favor of evolution and against God are biased and completely devoid of evidence, proof or facts. If this logic holds true, we need to pursue ways to make it real to others. If we can show their non-scientific bias cannot be substantiated then this revelation could bring down the Goliath-fortress so widely perceived as invincible. Can we make the case conclusively and convincingly?

How do you convince people who believe everything came from nothing and that chaos created the infinite order before our eyes, is the result of a random evolutionary process? Well... if a mindless, non-thinking, nothing created everything including evolutionaries, then what can we expect? Why do I hear John Lennon’s song *Imagine* playing?

So what is the problem? What effect does believing in a Creator or evolution result after twelve years of evolutionary training? We like to refer to it as **Evilution**. It is just that; Evil.

Definition of Evilution

evil-lu-tion

The systematic deception of the origin of human life for the expressed purpose of having society depend upon government; not God.

The public school system's indoctrination of students to accept the "theory" of Evolution as scientific fact is ***the greatest hoax forced on our children – our culture – in our country's history.*** Public education offers no other choice! All other possibilities of the origin of mankind from Intelligent Design to Biblical Creationism have been censored. And, it is the philosophy evolution fosters that is the source of myriad social upheavals and moral decay.

Evolution's basic treatise lays the ground work for the belief in self as the highest standard and power. God, then, is disregarded making way for the acceptance of destroying - without conscience - His highest creation, mankind, via abortion and assisted suicide. Evolution's religion, Hedonism, glorifies self. It promotes self gratification, self-serving, and the total self-indulgent philosophy that individual pleasure is the highest good and proper aim of human life. Therefore, it excuses bullying, cheating, stealing, promiscuity, same sex relationships, and more. It promotes a disregard for civil authority and diminishes human potential as witnessed in the disappearing ability for critical thinking among its disciples.

More aptly named ***Evilution***, evolutionary philosophy's tentacles have an undeniable strong-hold on today's youth.

The sad proof that this philosophy permeates the mindset of today's teens is realized in hard statistics charting the mass exodus of 60% to 80% of young people from church after high school graduation.

They have believed the lie and become its slave. It's a choice between the Tree of Knowledge of Good and Evil and the Tree of life.

"... today I have set before you life or death, blessing or curse. Oh, that you would choose life; that you and your children might live!"

Deuteronomy 30: 19 Living Bible

Our children are being brainwashed day by day. Will you help? Think it through then act!

Chapter Six

Your Mission: No Choice

Know it is a Battle for the Minds of Our Children

For decade's only one view of the origin of species has been allowed in schools. As you know, children are required to attend consequently; this is no less than indoctrination and brainwashing since alternate views are banned. The church doesn't seem to be doing much about it when we consider church attendance beyond high school by our young people rapidly declines.

There is no excuse for Christians not to act considering the present administration in Washington DC has allowed Bibles in Public Schools through an executive order.(President Donald J. Trump)

Start by Questioning Evolution as a Scientific Fact. Prove It!

A strong case can be made that evolution is not an authentic science. To begin with evolution denies creationism and God when in fact the complexity of everything around us points to a created design; consider the replicating functionality of DNA. Nothing created DNA? Nowhere, at any time do evolutionists offer a scientific fact disproving God. Rather they attempt to make their case against His existence with broad generalizations like: "all genuine scientists view evolution as settled science." "Thousands of volumes attest..." "Fossils billions of years old..." and so forth and so on. None of these arguments disprove God. And consider that we can factually state that evolution is only a theory, and is no more than, ***an alternate explanation of how it all began.*** Evolution certainly does not disprove God.

Scientists Have No Facts to Rule Out the Existence of God. Prove there is no God!

Scientists can not go into their disciplines and find any positive proof that eliminates a Creator i.e. God. It is reasonable to expect that if they found such evidence weighing against God, they would share it. If they have none, then it's not what they found that convinces them there is no God, it just proves they were biased against God from the beginning. Rather, they try to imagine how all of life came about or could have happened

without God with their rich imaginations. Their books and research papers are no more than supposition and conjecture, yet they succeed in selling the theory of evolution (anti-God) to the public by coercion and intimidation. And yes, entire denominations buy into their lie that superstition and fables and faith are the same. And if you resist you will be seen as ignorant and poorly educated. Their bluff works. They have no science to rule out God, and, if they did, they would welcome competition; "Bring on your creation science.

If you disbelieve the first words of the Bible how much more have you conveniently reject in God's Word?

In the beginning God created the heaven and the earth.

Why Not Think God rather than a Random Happening?

There are plenty of good reasons to believe in God and no good reasons not to. (Visit www.servetheking.org for more info.) Our children are no match for teachers who are both authority figures and role models. The very atmosphere in schools is toxic in its presentation of evolution as settled science breeding the lie that God does not exist. Children cannot be expected to successfully resist the technical onslaught of those intent on winning through intimidation.

We can, with simple, easy to understand and communicate insights. Let's show and tell why it makes sense to believe in God and be responsible before God. We can begin to do our part by spreading the word, evolution is a theory. Why not think God?

Chapter Seven

David Killed Goliath: We Win!

Who Is Our 21st Century Goliath?

Someone once said the meaning of life is the resolution of conflict between good and evil for the glory of God. To ignore that Christianity is in a battle for its life is to ignore what the United States has experienced over the past 100 years. Like Europe, the USA is experiencing a decline in church attendance and worst, a society that no longer knows right from wrong.

The Challenge

We face defining a strategy to reverse the onslaught of the enemy by first defining who is the 21st Century Goliath. The battle fields we face are:

1. Media and News (Dilute Bible Truth),
2. Education (Censorship of our Belief in God),
3. Science (Promotes evolution the gateway to atheism),
4. The Arts (Music & Movies Pollute Our Minds), and
5. Politics (Teaches Government is our Salvation).

You are probably thinking those five sphere of influence are way too big for believers to defeat. That's exactly what King Saul and his soldiers thought. But then along came David and without human reasoning and unwavering faith in God, David boldly proclaimed a victory and proceeded to kill Goliath.

Fight One Battle at a Time!

Serve the King ministries believes one of the greatest threats to a Godly nation begins in our schools. The constant destruction our faith in God starts with the most innocent, our children, and by the time they graduate high school twelve years of secularism, naturalism, atheism, and censorship of God from curriculum and authority is devastating. We are witnessing a spiritual Foxe's Book of Martyrs where our children are being spiritually murdered with lies and deceit right before our eyes. Our one stone is arming our youth for the battle. Youth Pastors, there are David's among you that will hurl a stone carried by the Spirit of God that will proclaim ***Let My People Believe!*** Pick Up Your Stone and Fight!

The Solution

Serve the King is a ministry to ministries helping others fulfill their God born plan for Him and hope for Humanity. In that consideration we have narrowed our fight to what we believe is the number one area where students are transformed from believers in creationism and God, to evolution. Evolution has been the only subject taught and allowed for the Origin of Mankind in public schools. Our children are censored from any other belief and are strongly influenced by their authorities in the classroom as previously stated.

Know The Theory of Evolution Produces Atheism

More than 60% of church attending students graduating from school leave the church! The majority of the efforts of our pastors and youth pastors apply after 12 years of church teaching of God's creationism is diluted and defeated as students conclude, ***if we have evolved from the earth over millions of years then the creation of mankind seven thousand of years ago by God doesn't make sense.*** Hence, atheism is accepted as the truth of the origin of mankind for the majority of graduating students.

First Target the Theory of Evolution with Questions!

Serve the King's founder Don Cain has created a booklet to help students share their faith without offending judgments. They ask questions that reveal truth. The booklet is free and over 150,000 copies are in circulation around the world in over a dozen languages.

Teach our Youth Creation

Studies show that a student that believes in God's creation as stated in Genesis 1 remain in the Church after graduating from high school. It's that simple. There are so many resource that support Creationism. One of the best is www.Creation.com. There are so many articles and programs that they will help you with to teach the youth. You will be amazed at the videos and sermon materials you will find that makes your ministry powerful.

Next Support Youth Ministers with resources and media (video and social media) to boost the impact of their present and positive ministry. We offer these service free of charge and will collaborate with youth ministers by listening and supporting them in their quest to fulfill their calling. Visit our website www.ServeTheKing.org.

One Stone at a Time

There is no better time than the present to act while the doors are opening in the USA for Christians to exercise their right to Freedom of Religion. The prayers of the Church are being heard by God and we are witnessing the pulling down of strong holds as our President is defending our faith here and abroad. He is openly behind Christians in word and deed. Pick up your smooth stone and sling it. Pray! Act!
